

## ZC210 - PREDATOR

The ZC210 Predator reticle is designed for rapid target engagement, using a traditional BDC layout with 100m increments up to 600m. It is optimized for a 30cm targets up to 500m and 50cm target at 600m using standard cal. 5.56/ cal. 7.62 ammunition with standard barrel length (16"-20"). It includes leads next to the center for tracking moving targets at speeds of 6,4km/h (4mph), 9,65km/h (6 mph), and 12,9km/h (8 mph).

The reticle hashmarks also enable ranging of 50cm wide targets from edge to edge and 25cm from center to edge, effectively combining speed and accuracy in one platform.
